

FUTURE INVESTMENT INITIATIVE 2019

29-31 OCTOBER 2019

RITZ CARLTON AND KING ABDULAZIZ
CONFERENCE CENTER, RIYADH, SAUDI ARABIA

WHAT IS NEXT FOR GLOBAL BUSINESS?

ABOUT FII

The Future Investment Initiative (FII) is a platform driven by expert-led debates, discussions, and partnerships among the world's most influential leaders in business and government. For the past three years, the FII community has shaped the future of global investment through a three-day program featuring conversations with global leaders, roundtables and networking among CEOs and policymakers.

ABOUT THE PUBLIC INVESTMENT FUND (PIF) OF SAUDI ARABIA

The Public Investment Fund seeks to become one of the largest and most impactful sovereign wealth funds in the world, enabling the creation of new sectors and opportunities that will shape the future global economy, while driving the economic transformation of Saudi Arabia. To achieve this, the Fund is building a world-class, diversified portfolio through investments in attractive, long-term opportunities across sectors and asset classes at both the domestic and international level. Working alongside global strategic partners and renowned investment managers, PIF acts as the Kingdom's main investment arm to deliver a strategy focused on achieving attractive financial returns and long-term value for the Kingdom of Saudi Arabia, in line with Vision 2030.

The Public Investment Fund Program (2018-2020), part of the Kingdom's Vision 2030 Vision Realization Programs, acts as a roadmap for the next three years to strengthen PIF's position as the engine behind economic diversification in the Kingdom and role in transforming Saudi Arabia into a global investment powerhouse. The program will see the Fund's Assets Under Management increase to over \$400 billion by 2020 and outlines how PIF aims to complement private sector development in the Kingdom through its new domestic investment, split between the Fund's Saudi Holdings, Saudi Sector Development, Saudi Real Estate & Infrastructure Development, and Saudi Giga-Projects.

More information about PIF can be found at: www.pif.gov.sa.

ABOUT FII INSTITUTE

The FII INSTITUTE will be the knowledge management vehicle to build the influence of the FII community while shaping the global investor agenda.
Four key objectives will drive the development of the FII INSTITUTE:

- ▀ Serve as the most prominent investment knowledge and thought leadership platform for the elite investor community to determine investment trends and decision-making at a global level
- ▀ Act as a lab to identify solutions revolving around the global economic landscape, from financial to technological innovation
- ▀ Promote future-oriented investment-related partnerships, with a tangible socio-economic impact and bridge the gap between those who dream and those who do
- ▀ Build a deeply anchored community, aptly fostering leadership and peer-to-peer relationships amongst all strategic stakeholders in the global economy

The FII INSTITUTE will be officially launched during the 3rd edition of FII (29-31 October 2019).
