What is Humanity's Highest Priority?

A SUMMIT TO DEFINE HUMANITY'S HIGHEST PRIORITY

Enlightenment has often followed humanity's darkest hours. In a time of extraordinary social and economic transformations and shifting geopolitical alliances, the Future Investment Initiative (FII) Institute, in line with its mission to have a positive impact on humanity, will host a capstone summit to identify and explore the highest Priority of all humankind.

On September 22nd, 2022 in New York City, **PRIORITY** will uncover the number-one Priority in the minds and hearts of all individuals from every age, background, and culture across all continents. Then, in a series of interactive conversations and debates among a range of stakeholders – including investors, policymakers, business leaders, media titans, Nobel laureates, athletes, experts, average

citizens, and anonymous heroes – **PRIORITY** will determine humanity's most pressing need and desire – its top Priority.

In revealing the world's highest Priority as we transition to a new global order, **PRIORITY** will serve as an essential building block for the sixth edition of the Future Investment Initiative. It will be the call to action to help humanity survive and thrive in a complex new world.
