In Partnership with

A SUMMIT WHERE HUMANITY IS THE PRIORITY

Powered by FII Institute, PRIORITY brings together the world's leaders from business, government, academia, civil society, technology, and the media to engage in game-changing discussions that shape the global agenda. This summit is guided by FII Institute's mission and anchored by its PRIORITY Report, which reveals the top priorities for individuals around the world.

We believe we are in the right place at the right time: when decision-makers, investors, visionaries, entrepreneurs, and an engaged generation of youth come together in aspiration, ready for action and change. FII Institute harnesses this energy into three pillars: THINK, XCHANGE, ACT. THINK empowers the world's brightest minds. XCHANGE builds inclusive platforms. ACT incubates and invests directly in the technologies of the future.

PRIORITY is more than an event — it is a movement and a platform that cuts through the daily noise and reveals an inclusive snapshot of hearts and minds across the globe.

PRIORITY 2023 will...

- Discuss the most pressing issues for citizens around the world
- Identify the most effective solutions
- Issue a call to impact to world leaders
- Inspire global cooperation to achieve humanity's priorities

With a unique community of leaders:

- Head of State and Government, and Policymakers
- Global Investors and Business Leaders
- Next-Generation Leaders, Visionaries, and Entrepreneurs
- Scientists, Academics, and Experts
- Engaged Citizens, Media Influencers and Futurists

A CRITICAL CONVERSATION IN A CITY AT THE FOREFRONT OF CHANGE

PRIORITY 2023 will be a disruptive global conversation with far-reaching impact. This could only take place in a city that shares the FII Institute's DNA of optimism and passion for global positive impact on humanity: Miami.

Miami has emerged as a world-leading:

Global investment & financial hub

Tech & startup scene

Epicenter for crypto & blockchain innovation

Capital for art & culture

Symbol for a better quality of life — ranked happiest city in the USA three years in a row by Mindbody

A PLACE FOR CANDID EXCHANGES ON THE WORLD'S MOST CRITICAL ISSUES

Breakthroughs happen outside the comfort zone. Beyond the status quo. Exploring the world's most critical issues requires innovative formats, stimulating debates, and inspiring conversations. Our engaging and participatory approach makes each PRIORITY a unique and memorable experience.

Economy

As the cost of living crisis is compounded by fears of a recession, how can the global economy become more resilient?

Environment

With so many Net-Zero pledges yet to be implemented, how can we keep the hope for 1.5C alive?

Education

How can we reduce "learning poverty" to save the "Lost Generation" before it's too late?

Blockchain

How is crypto's volatility impacting the future of blockchain-based currencies?

Workforce & Jobs

Job creation is the One Trillion Dollar Question, but how is the Great Resignation affecting the answer?

Tech

The New Silicon Valleys: How are global cities attracting innovators and entrepreneurs?

Security

What's next in the battle against cybersecurity, fraud, and identity theft?

Healthcare & Wellbeing

As we move beyond the pandemic, what are the most promising health innovations on the horizon?

Energy Transition

Which technologies and financing structures will lead the energy transition?

AI

With AI development accelerating exponentially, how can we harness these new capabilities for good?

Culture

Mona Lisa 2.0: Which digital trends will have the biggest influence on the Art World?

Finance

With 1 in 5 countries facing financial stress, is it time to redesign the international financial architecture?

Sport & Entertainment

How can we bring communities together in new and exciting ways?

Space

How can the Great Space Race between nations become friendly again?

Supply Chain

How can we address the current challenges in our global supply chains?

Food

With half of the planet unable to afford a healthy diet, how can we increase access to nutrition?

INSIGHTS FROM FII INSTITUTE'S PRIORITY REPORT

With our partner IPSOS, we asked 130K people in 13 countries representing 50.3% of the global population: **What is your highest priority?**

Cost of Living

Poverty & Social Inequalities

Unemployment

Social Protection System

Crime

Education

Global Warming

Pandemics

Taxes

International Tensions

Immigration

Fighting Terrorism

Key highlights from the PRIORITY Report that will set the stage for our discussions:

The world is deeply divided: 70% of the citizens in high-income and African countries have a negative future outlook, while 70% of citizens in emerging Asian countries are optimistic.

The highest priority globally is **cost of the living**; the top 4 global priorities are all related to financial security. Within cost of living, **food security** is the number one concern across all demographics.

The Great Resignation is upon us, with 50% looking to leave their jobs, citing low salary as the top reason. The vast majority (66%) is not looking to work as means to fulfill themselves, but rather to earn a decent wage.

On global average, 50% say the **social crisis** must be the priority when it comes to the future of our planet, while 40% say the **environmental crisis**.

Overall, people felt that their own lives were headed in the right direction, but that their countries and the world are on the wrong track. How can we work together to build a brighter future for all and with all?
