## Rio de Janeiro

**INVEST IN DIGNITY**

June 11 – 13, 2024

COPACABANA PALACE, RIO DE JANEIRO

## FII PRIORITY SUMMIT RIO DE JANEIRO: INVEST IN DIGNITY

Under the theme, **Invest in Dignity**, the FII PRIORITY Summit Rio de Janeiro will delve into how investing in renewable energy, AI and entrepreneurship, and social impact can build a new global order that prioritizes dignity for all. Ensuring that global citizens' dignity is nurtured and protected stands as a pivotal global objective and is inextricably intertwined with sustainable development and economic prosperity.

**We all want to make the world capable of welcoming all its inhabitants with dignity - and not just a privileged minority.**

- President Luiz Inácio Lula da Silva

In the words of Brazilian President Luiz Inácio Lula da Silva, "We all want to make the world capable of welcoming all its inhabitants with dignity - and not just a privileged minority."

Investment into climate-conscious action, the most powerful novel technologies, and equitable solutions represents the foundational seed, from which a dignified world for all will grow.

## ABOUT FII PRIORITY SUMMITS

Building on the FII Institute's flagship annual conference in Riyadh, Saudi Arabia, the FII PRIORITY Summits are more than just gatherings of forward-thinking leaders—they are **engines for action**, hosted in **cities that are driving the trends** that will shape humanity's collective future. Global figures convene in diverse urban hubs, with a special focus on the Global South, to develop concrete strategies that address the pressing issues attracting global attention. More than reflecting on the status quo, the Summits' agendas encompass topical issues on a macro scale, plotting the course from today's challenges to tomorrow's touchstones.

## A PLACE FOR TRANSPARENT EXCHANGES ON THE SUMMIT'S KEY PILLARS

### GEOECONOMICS OF A NEW GLOBAL ORDER

The OECD projects that global growth will drop to 3.1% in 2024 – well below the historical average of 3.8% -- highlighting the urgency of finding new sources of economic dynamism. With their vast natural resources, expanding digital economies, and young, ambitious populations, emerging markets in the Global South have the potential to reshape economic power structures and trade patterns. What strategic investments and geopolitical realignments are needed to harness this potential, fueling more regionally driven growth trajectories?

Macroeconomic Trends	Corporate & Institutional Governance
Global South Leadership	South-South Cooperation
BRICS+	Capital Markets

### RESOURCES & ENERGY

Stanford researchers estimate that global CO2 emissions exceeded 40 billion tons in 2023, with Amazon deforestation playing a significant role. However, the Amazon's natural resources hold immense economic potential through renewable power, biobased energy and materials, and an estimated \$125 billion carbon market. Can governmental leaders, policymakers, and innovators converge to capitalize on these investment opportunities, drive net-zero initiatives, and lead the global ecological transition?

Decarbonization	Hydrogen & Renewables
Financing the Energy Transition	Sustainable Mining & Critical Minerals
Food & Agribusiness	Supply Chain Resilience

### AI, TECH & ENTREPRENEURSHIP

The explosive growth of the generative AI market, predicted to surge from \$86.9 billion in 2022 to \$407 billion in 2024, underscores the urgency and increasing potential for widespread transformation. This momentum is mirrored in Latin America, where venture-backed startups doubled between 2020 and 2023, drawing \$16 billion in investments in 2021 alone—exceeding the entire prior decade and fueling the rise of new VC entities targeting this untapped potential. Will savvy investors and founders both achieve outsized returns and drive socially transformative outcomes in this dynamic landscape?

Infrastructure & Urbanization	AI & Robotics
Entrepreneurship & Startup Ecosystems	Innovation in Medicine & Science
Agtech	Fintech & Digital Banking
Empowering the Next Gen of Tech Leaders	

### SOCIAL IMPACT

Global income inequality has worsened, with the richest 1% making nearly two-thirds of the \$42 trillion of newly-created wealth since 2020. Latin America's unprecedented demographic shift—with birth rates amongst the lowest in the world and rising life expectancies—coupled with high rates of youth emigration, merely 51% workforce participation by women, and the second-lowest worker productivity rate globally presents extraordinary challenges for the region. What policies will close the investment gap for the education, technology training, healthcare, and care systems required to achieve people power parity?

Preservation, Biodiversity & Protecting Global Rainforests	Inclusion & Indigenous Rights
Poverty Eradication	Future of Education
Sport for Development	Entertainment & Emergence of Cultural Identity

## WHY RIO DE JANEIRO?

Latin America's gaps in funding for ideas, innovations, and technologies create significant **opportunities for high-yield investments and remarkable growth**. Countries such as Brazil, Mexico, Argentina, and Colombia represent the world's current hotspots for startups, investment, and culture. Brazil's strategic natural resources and economic leadership make it a leader of the global green transition—driving sustainable growth opportunities and leadership on critical climate action.

Rio de Janeiro – the “Cidade Maravilhosa” or “Marvelous City” – is a pivotal **gateway to Latin American economies**. As the upcoming host of the G20 Summit, Rio de Janeiro's historical and present-day influence in finance, culture, and sport is being brought to the global stage. The city's dynamic emerging startup scene crowns it as a new **hub for innovation and investment**.

KEY HUB OF THE LARGEST, MOST STABLE ECONOMY IN LATIN AMERICA

HIGH-POTENTIAL STARTUP & INNOVATION ECOSYSTEM

CULTURAL EPICENTER OF SOUTH AMERICA AND THE GLOBAL SOUTH

GLOBAL FOCUS OF ENERGY TRANSITION AND CRITICAL CLIMATE ACTION

LONG-STANDING ICONIC SPORTS NEXUS
