OCTOBER 30
INVESTMENT DAY

INVESTMENT DAY at FII9 is where deals are made. Delve into the strategy of renowned investment firms and hyper-growth ventures, demo next-gen tech, engage in high-value networking with global Founders and LPs—unlike any other investment event in the world.

FII9 Theme

The Key to Prosperity

The **9th Edition of the Future Investment Initiative** will convene the world's most influential leaders to **unlock solutions** and **open new doors** to global prosperity — guided by FII9's theme.

In a world increasingly shaped by paradox, prosperity is no longer a linear path. Tensions between growth and sustainability, innovation and stability, and fragmentation and interdependence are deepening. FII9 will confront these contradictions head-on — not as obstacles, but as opportunities.

By bringing together global investors, visionary leaders, and pioneering minds, FII9 will explore what it truly means to prosper in a time of competing priorities. Through thoughtful debate, collaborative solutions, and long-term vision, FII9 will identify actionable strategies that move us closer to inclusive, sustainable, and secure prosperity for all.

PARADOXES DEFINING THE GLOBAL DIALOGUE

PROGRESS

VS

CONSEQUENCES

Growth intensifies inequality and strains finite resources, sparking tensions that undermine long-term stability. Technological breakthroughs and demographic pressures amplify these risks, challenging society to confront long-held notions and indicators of progress. How will humanity ensure prosperity without jeopardizing future generations?

INNOVATION

VS

CONSTRAINTS

Relentless innovation and ambitious breakthroughs define today's landscape, yet the gravitational pull of policy and strategy leans toward control, risk management, and measurable returns—especially amid rising interest rates and geopolitical tension. When innovation is the norm, how do businesses and investors truly stand out?

FRAGMENTATION

VS

CONNECTIVITY

Fragmentation is redefining alliances and challenging established financial systems and shared infrastructure. As investment and regulation accelerate, how can we balance national interests with international cooperation, open science, and security and avoid the risks of a fragmented global approach?

FII9 Topics

PROGRESS VS CONSEQUENCES

THE PRODUCTIVITY PARADOX OF AI AND ROBOTICS

WEALTH CREATION AMID DEEPENING INEQUALITY

ECONOMIC GROWTH AT ENVIRONMENTAL TIPPING POINTS

RIISING ENERGY NEEDS IN UNCERTAIN MARKETS

THE GEOPOLITICS OF SCARCE CRITICAL RESOURCES

A MESSAGE FROM THE CEO

Some conversations spark headlines. Others spark change. FII delivers the latter. It provides a platform for some of the most important conversations of our time, it helps build impactful international partnerships, and – not least – it is where global investments are made that shape our future economy.

FII fuels the transformation of industries and economies around the world with ambitious ventures and visionary projects. We have announced \$200 billion's worth of deals at past summits, and this year we will continue to celebrate investment, innovation and collaboration.

Join other powerful leaders, investors, entrepreneurs, and visionaries for insightful discussions and pioneering solutions to today's challenges.

Penny Richards

CEO of FII Institute
