## FII PRIORITY EUROPE: INVEST IN A CONNECTED EUROPE

As the European continent stands at a pivotal juncture, facing economic transformation and evolving capital flows amidst global geoeconomic shifts, FII PRIORITY Europe launches with an urgent call to action — and its official theme — **“Invest in a Connected Europe.”**

**Fragility, unpredictability, and fragmentation** are steering the trajectory of our global economic landscape. According to the 2025 OECD Economic Outlook Report, global GDP growth is projected to slow from 3.2% in 2024 to 3.1% in 2025 and further to 3.0% in 2026, reflecting downward revisions driven by shifting trade alliances, geoeconomic tensions, and persistent inflationary pressures. Despite these challenges, **Europe is uniquely positioned to redefine its role on the global stage and to champion renewal and connectivity.**

By leveraging its unified regulatory framework and prioritizing innovation-driven investments, Europe could transform trade tensions into opportunities, emerging as a **beacon of economic cohesion in an increasingly divided world.** With a vision rooted in economic transformation, technological progress, and sustainable growth, FII PRIORITY Europe embodies the ambition of a stronger, more competitive, and more forward-thinking Europe.
