FII PRIORITY EUROPE: INVEST IN A CONNECTED EUROPE

As the European continent stands at a pivotal juncture, facing economic transformation and evolving capital flows amidst global geoeconomic shifts, FII PRIORITY Europe launches with an urgent call to action — and its official theme — **“Invest in a Connected Europe.”**

Fragility, unpredictability, and fragmentation are steering the trajectory of our global economic landscape. According to the 2025 OECD Economic Outlook Report, global GDP growth is projected to slow from 3.2% in 2024 to 3.1% in 2025 and further to 3.0% in 2026, reflecting downward revisions driven by shifting trade alliances, geoeconomic tensions, and persistent inflationary pressures. Despite these challenges, **Europe is uniquely positioned to redefine its role on the global stage and to champion renewal and connectivity.**

By leveraging its unified regulatory framework and prioritizing innovation-driven investments, Europe could transform trade tensions into opportunities, emerging as a **beacon of economic cohesion in an increasingly divided world.** With a vision rooted in economic transformation, technological progress, and sustainable growth, FII PRIORITY Europe embodies the ambition of a stronger, more competitive, and more forward-thinking Europe.

ABOUT FII PRIORITY SUMMITS

Building on the legacy of the FII Institute’s renowned annual conference in Riyadh, the **FII PRIORITY Summits** are designed as engines of actionable change. Held in influential cities—global hubs for innovation and economic leadership—the Summits emphasize the Global South and other emerging markets to tackle critical global challenges. Far from merely reflecting on the current state of affairs, FII PRIORITY Summits **pioneer solutions that transcend industries and geographies.** By convening thought leaders, investors, and policymakers, the Summits transform today’s challenges into tomorrow’s breakthroughs, setting the stage for sustainable growth and unparalleled value creation.
