FII PRIORITY MIAMI, 4th Edition Theme: **CAPITAL IN MOTION**

Capital in Motion captures **a world unsettled yet accelerating forward**, where resources, talent, and ideas are constantly in transit.

Capital is surging across borders, industries, and technologies as slower growth, higher-for-longer rates, and sharper geopolitical rifts reshape where money can earn a return. Business models, supply chains, and innovation bets are being rebuilt around a few hard targets—the energy transition, digital infrastructure, AI, and regional resilience—even as institutions confront widening social divides and mounting fiscal strain.

Across boardrooms and trading floors, a new mandate is clear: **deploy with speed, think with range, and stay decisively ahead of the curve**. Today, trillions are moving from passive strategies into private markets, alternatives, tokenized assets, and newly opened trade corridors.

This is a moment defined not by capital at rest, but by Capital in Motion, and by the choices that determine where it moves next.

\$35 TRILLION +

IN GLOBAL TRADE

Global trade this year will exceed \$35 trillion for the first time – an increase of about \$2.2 trillion, or 7%, compared to 2024

\$60–65 TRILLION

IN PRIVATE MARKETS BY 2032

Private market AUM will reach \$60 to \$65 trillion by 2032, growing more than twice the rate of public assets

3X MORE FDI

INSIDE GEOPOLITICAL BLOCs

In the three years up to Q1 2024, FDI flows within geopolitical blocs were almost three times higher than flows between blocs
