A Message from H.E. Yasir O. Al-Rumayyan

As we mark the 10th anniversary of the Future Investment Initiative, we reflect on a decade defined by transformation, ambition, and a shared commitment to shaping the future of the global economy.

At this pivotal milestone, we convene under a unifying imperative: The Power of Legacy. Legacy is no longer a reflection of the past. It is a responsibility to the future. The decisions made today by leaders across government, business, and investment will determine not only economic outcomes but also the trajectory of societies for generations to come. In a world marked by divergence between innovation and inclusion, optimism and uncertainty, we are called to close the gap between potential and reality.

Since its inception, FII has grown into a leading global platform, bringing together heads of state, investors, innovators, and business leaders to address the world's most pressing challenges. What began as a convening has evolved into a catalyst for action, where ideas are translated into partnerships, and dialogue into tangible outcomes.

H.E. Yasir O. Al-Rumayyan

Chairman, FII Institute
Governor, PIF
Chairman, Saudi Aramco

Richard Attias

Chairman of the Executive Committee, FII Institute
Founder & Chairman, Richard Attias & Associates

As we look to the future, we are reminded that transformation is never neutral—it is either seized or endured. This is not a moment for observation, but for decision.

Over the past decade, the Future Investment Initiative has evolved into more than a global gathering. It has become a catalyst where partnerships are forged, ideas become action, and leaders come together to shape the future.

The question is no longer whether change is coming, but who will lead it—and who will be left to react. This is our moment to choose.

H.R.H. Dr. Maha Bint Mishari Al Saud

Chief Executive Officer, FII Institute

For ten years, the Future Investment Initiative has brought together leaders who understand that investment is more than capital—it is a catalyst for human progress. As we mark this milestone edition, we are called to think beyond immediate outcomes and toward the legacy we will leave behind. The choices we make today, the partnerships we forge, and the innovations we champion will shape not only the future of economies, but the future of societies. The Power of Legacy is ultimately the power to create lasting impact—for people, for prosperity, and for generations to come.

HOW IT STARTED

10
ANNIVERSARY

FII10 WEEK

"An international platform for expert-led debate between investors, innovators, governments and economic leaders—convened to invest in the most promising solutions."

Future Investment Initiative —

Founding mandate, Riyadh · October 2017

Launched by the Public Investment Fund under Saudi Vision 2030, the inaugural FII gathered 3,800 participants from over 90 countries for three days in Riyadh. The ambition was straightforward: open a global conversation about where capital meets consequence. From that single convening, NEOM was announced, a \$20 billion infrastructure commitment was made to Blackstone, and the world took notice of a new seat at the table.

WHAT BEGINS WITH PURPOSE

» BECOMES LEGACY

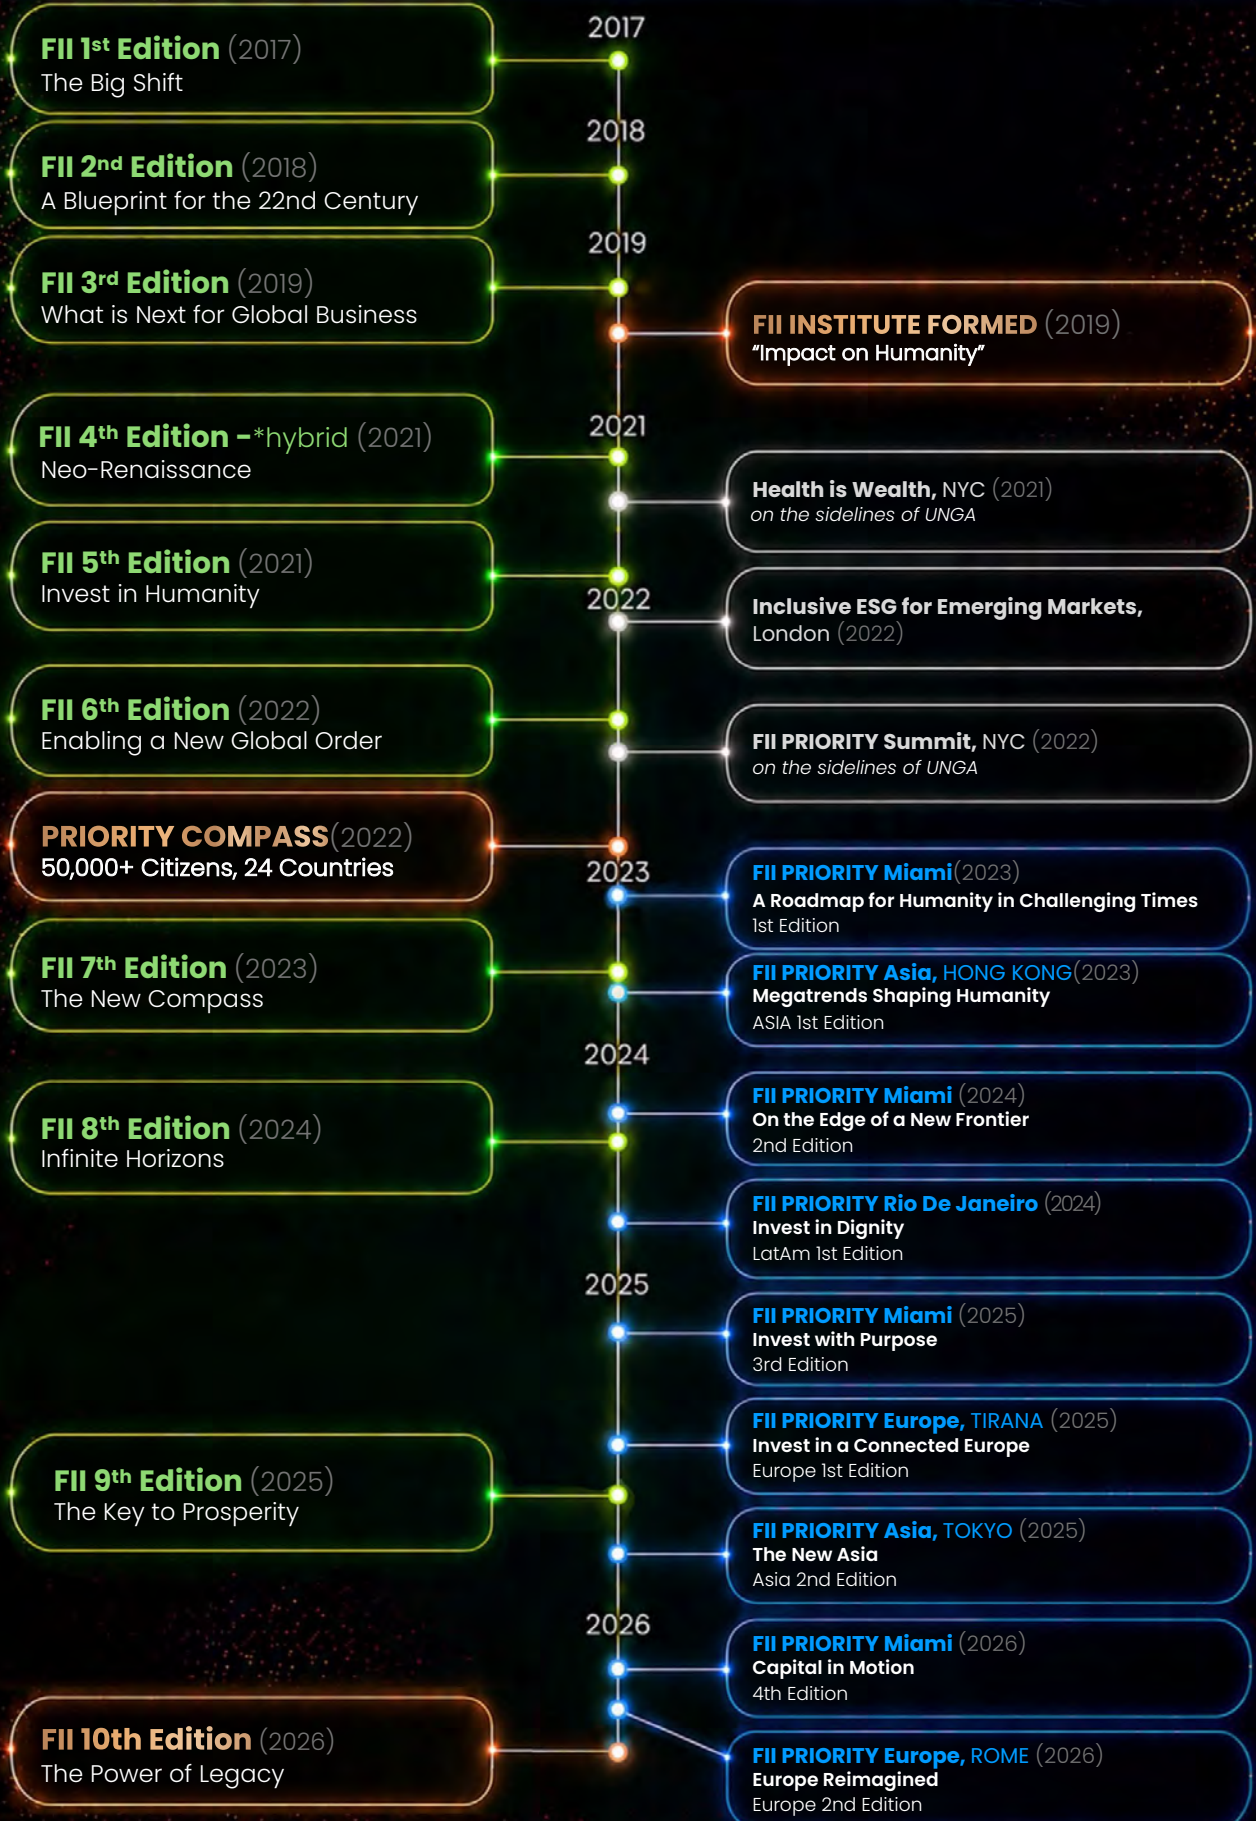

HOW IT'S GOING

FII has evolved from a landmark conference into a global movement—a trusted community where forces behind capital, technology, and policy collide. Powered by the FII Institute, this energy has spread far beyond the flagship event, with year-round research, initiatives, collaborations, and summits in key cities around the world. Today, FII is an ecosystem that mobilizes leaders, unlocks investment, and delivers real impact for people and the planet.

10th Anniversary of the Future Investment Initiative

Theme: The Power of **Legacy**

A decade later, the defining question of the day is not how fast the world grows, but what endures.

As uncertainty cascades and resilience is tested, FI110 will frame *The Power Of Legacy* as the catalyst for durable growth amid forces that compound exponentially and often unevenly. Capital is diverging across geographies and asset classes. Artificial Intelligence is rewriting productivity, labor, and competitive advantage. Climate, demographics, and debt are reshaping the arithmetic of growth. When speed without direction is drift, legacy is the corrective—centering intention in what you build, what you change, and what you carry forward.

**LEGACY
INVESTS.**

**LEGACY
MULTIPLIES.**

**LEGACY
ENDURES.**

Key Pillars of the Program

The four dimensions that translate FI110's thematic concepts into the sessions, stages, and commitments of the week.

Capital that builds

from extractive return to regenerative investment. How sovereign wealth, institutional capital, and private markets are being re-architected for long-duration impact.

Societies that thrive

prosperity distributed broadly enough to remain stable. Education, health, culture, sport, and the institutions that hold societies together across generations.

Technology that elevates

AI, biotech, energy, and space deployed as instruments of human advancement. Scaling frontier technologies with the governance they deserve.

Leadership that inspires

the stewardship, ethics, and visionary frameworks that define what remains when a mandate ends. Legacy as a leadership discipline, not a retrospective exercise.

IMMERSIVE TECH

Interactive environments that transform data into an experience. Through guided simulations and storytelling, embark on a visual, data-driven journey of the program, culminating in clear, actionable insights.

Experience the **PRIORITY Compass**

An interactive evolution of FII's flagship framework explores real-time global indicators and predictive scenarios. Blending immersive design with data visualization, it's a powerful tool to better understand emerging risks, opportunities, and shifting market dynamics.

WALK THE FII AVENUE

An energizing outdoor hub within the KAICC complex, FII Avenue is designed for bold ideas, tailored activations, and meaningful connection. With multiple villas available for bespoke programming, it offers global institutions and leading brands a standout setting to host intimate gatherings, engage audiences, and create memorable impact.

For more information, please contact partnership@fii-institute.org.

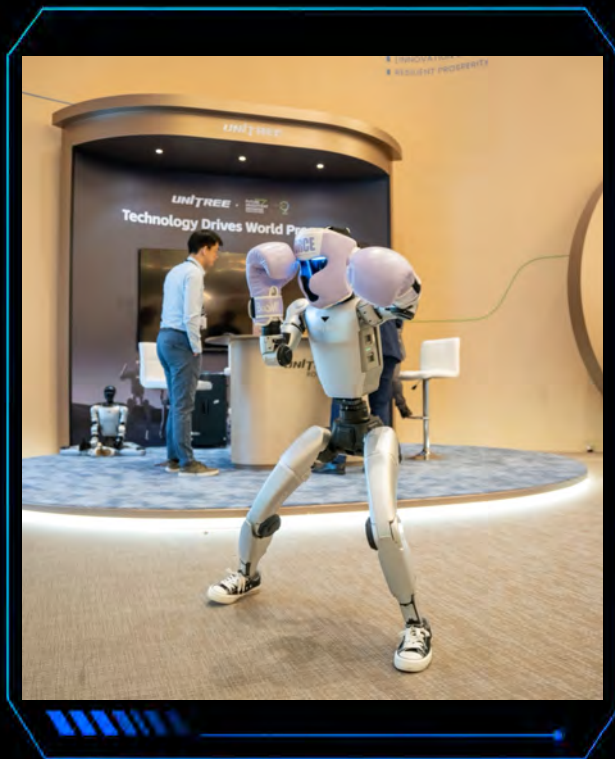

SPECIAL SCREENINGS

A cinematic expression of storytelling, culture, and global dialogue.

Over the past decade, FII has been a central force driving investment trends, market shifts, and industry-building in the region and the world.

Presented in an intimate setting and paired with curated conversations, this series relives the defining moments and forces that have shaped the impact and legacy of FII.

INVESTMENT ARENA & INNOVATION HUB

FII10's dedicated dealmaking hub.

The Investment Arena brings together capital and innovation in a high-impact setting. Featuring an exclusive investor lounge, curated matchmaking, and live technology demonstrations, it is designed to accelerate meaningful connections and turn strategic conversations into actionable outcomes.

FI110 WEEK

FIITV STUDIO

FIITV Studio is FII's live broadcast hub, transforming the conference into a global newsroom with headline debates, exclusive interviews, and behind-the-scenes insights. It amplifies every moment, turning ideas on stage into stories that reach boardrooms, newsrooms, and audiences worldwide.

MEDIA PARTNERS GALLERY

The Media Gallery showcases the global media ecosystem carrying FII's voice across continents. It is a vibrant space where outlets create content, meet decision-makers, and shape narratives—making clear that what happens at FII is seen, shared, and debated around the world.

For more information, please contact media@fii-institute.org

FII Institute Overview

FII Institute was established in 2019 as a global nonprofit foundation born from the Future Investment Initiative, launched by Saudi Arabia's Public Investment Fund in 2017.

Created to advance the objectives of Saudi Vision 2030, the Institute was founded to serve as a global platform bringing together leaders, investors, policymakers, and innovators to address the world's most pressing challenges through investment and collaboration. Today, FII Institute drives impactful initiatives and partnerships across key areas including AI, sustainability, healthcare, and education.

Guided by the mission of delivering Impact on Humanity, the Institute convenes global leaders, investors, innovators, and policymakers to drive meaningful dialogue, foster international collaboration, and advance actionable solutions shaping a more sustainable and inclusive future.

AI & Robotics
